

PANDEMONIUM

BRAND OVERVIEW

While Paso Robles rocks the wine industry, we're here to offer you the best of the appellation. Pandemonium was born from a desire to never settle for the status quo, to always push boundaries, and of course, to craft wines from the country's fiercest hidden gem, Paso Robles.

KEY SELLING POINTS

- **Sourced from the "Hottest" Wine Region in California.** Pandemonium wines are from Paso Robles, the fastest growing AVA in California. Considered the "wild west" of the wine industry, Paso is characterized as rule breaking and innovative. Pandemonium redefines where luxury red wines are grown.
- **Big, Bold Wines.** Pandemonium delivers in-demand varietals that make you take notice. There are not wimpy wines, they stand for something and will make you listen.
- **Unique Name and label.** Pandemonium definition is a wild uproar and the wines certainly are just that. Pandemonium labels feature abstract expressionist and modern art and were hand crafted by Carlos Corres.
